

520 E. Armour

KANSAS CITY, MO

Located in mid-town Kansas City, 520 E. Armour is a seven-story, 110 unit residential development on a single parcel bounded by Armour Boulevard on the South, Cherry Street on the east, and existing development to the north and west. Targeted towards young professionals, the 80,000 square foot building also features a fitness room, resident work space, and community space.

What We Did

As the civil sub-consultant to Helix Architecture, T&B provided civil engineering services including site layout and design, grading, parking lot improvements, water service lines, sanitary sewer services lines, exterior storm sewers and streetscape within public right-of-way, utility coordination, and rezoning.
