

Arrowhead/Kauffman Stadium Improvements

KANSAS CITY, MO

About the Project

Located in the Truman Sports Complex, the Arrowhead and Kauffman stadiums both with through major improvements that included the construction of major new concourse expansions on all four sides of Arrowhead Stadium and a new administration building, renovation of existing suites, an outfield entertainment complex at Kauffman Stadium. Significant infrastructure improvements were made to both stadiums including the relocation of major infrastructure such as sewers, major power lines, and water mains.

What We Did

Taliaferro & Browne provided all civil engineering services, including master planning and preparation of construction documents for all streets, pedestrian paved areas, storm sewers, site layout, site grading, utilities, mass grading, and erosion control.
